

## **Associated Student Senate of Fullerton College**

### **Statement In Support of a SWANA Teach-In on Palestine**

**Date Passed: 4/15/25**

**Vote: Unanimously**

Dear Fullerton College Administration, Faculty, and Staff,

We the Associated Students of Fullerton College would like to express our strong support in having Fullerton College prioritize the coordination and execution of a SWANA Teach-In focused on Palestine within the upcoming weeks.

We recognize that many students on campus, including members of the SWANA (Southwest Asian and North African) and broader Fullerton College community, are seeking opportunities to better understand the historical context and current realities surrounding Palestine. As a student body, we have limited access to educational resources or structured dialogue on these issues, despite its urgency and the global attention it demands.

We believe that the proposed teach-in would provide students with the opportunity to engage with subject matter experts, ask questions to gain a deeper understanding of the issues at hand, and ultimately provide students with a safe space to make their voices feel heard and understood.

We formally express our commitment to prioritizing this teach-in event and call upon Fullerton College administrators, faculty, and staff to support this effort. Please feel free to reach out through [as@fullcoll.edu](mailto:as@fullcoll.edu) if additional feedback from AS or the student body is needed to support this initiative.

Sincerely,

Fullerton College Associated Student Senate
